**REQUEST FOR CORRECTED PATENT APPLICATION PUBLICATION**

Sir:

Applicants respectfully request corrected publication of the above-referenced application. The specification, abstract, and drawings published by the US Patent and Trademark Office in Publication No. US-2007-0157568-A1 are from an unknown application and are not the specification, abstract, and drawings originally filed with this application on October 10, 2005. However, the claims are correctly published.

The application was published on July 12, 2007. A request for corrected patent application publication was filed via EFS on September 7, 2007. In accordance with 37 CFR 1.221, the request was submitted, via EFS filing, within two months from the date of patent application publication in order to avoid additional fees. However, the request was improperly submitted via EFS and a Pre-Grant Publication Rejection Notice was issued on September 11, 2007. The Pre-Grant Publication Rejection Notice was received at this office

on September 24, 2007 and a copy is attached as evidence of the prior request submission date. Applicants respectfully request reconsideration of this matter and that the request for corrected publication be granted without additional fees being incurred.

The Commissioner is hereby authorized to charge payment of any additional fees that may be due to Deposit Account No. 23-1925.

Respectfully submitted,

September 25, 2007
